

Ráidu - Encounter with reindeer

Come and experience traditional Sámi lifestyle and the art of reindeer sledding with our talented local guides. Help train, feed and race reindeer while learning about the importance these beautiful animals have to the Sámi way of life.

In this educational tour will you learn more about the Sámi culture and we will teach you why reindeer are the connecting link between the nature and our people. Our guide will take you with snowmobile sleds along a track through the reindeer winter grazing areas in the woods to the reindeer support feeding facilities and corrals for our reindeer. Get to know more about how reindeer survive tough winters and climate changes, and how our culture and traditions survive thanks to the reindeer.

You will be participating in the training process of male reindeer, and if conditions allow also meet females and calves. Reindeer sledding is an important part of the training and after the short sled ride around our track you will greet the reindeer with their favourite snack, before continuing into the lávvu.

Suovas (smoked reindeer meat) is fried over the open fire in the centre of the lávvu and it is served on traditional gáhku (Sámi flat bread) with lingonberries. Fresh boiled coffee and tea will be served after the meal. The intimate lávvu atmosphere opens up for discussions about Sámi culture, traditions and lifestyle, a perfect opportunity for you to learn from Europe's only recognised indigenous people.
