

Cabin rental: Reindeer Lodge

Stay at our idyllic cabin accommodation outside Jukkasjärvi and enjoy the company of grazing reindeer and, with some luck, the sparkling northern light above your rooftop. Remotely situated in the snowy woods and at the banks of river Torne this small-sized self-cater facility offers an ideal base for your Swedish Lapland winter getaway.

Reindeer Lodge comprises five wooden double bed cottages in Sámi design with reindeer next door and silence ruling supreme. Each cabin is one large room á 20 m². Four out of five cabins are also furnished with a sofa bed (size 1.60 x 1.80 m), so two more people fit in there. The cabins are equipped with wood-fired stoves and electrical heaters, tables and chairs. A common timber log building serves as a joint self-catering facility with fully-equipped kitchen, stove and seating. The joint wood-burning sauna with single-sex shower and dressing compartments as well as WC are found in separate communal facilities.

Make the most out of your stay by relaxing in the sauna, exploring the surroundings during a snow shoe hike or a ski tour and walking towards Jukkasjärvi village to visit the church, our Café Sápmi and exhibition area as well as the Icehotel premises. And of course by gazing into the night sky for a spectacular northern light show.

During winter Reindeer Lodge is also home to reindeer, hence the name. Our reindeer graze near the cabins and we support feed them to help them survive hard conditions. In November there are only a few reindeer at the lodge, but depending on snow conditions and as the winter progresses, more and more will move in. If you want to have a first-hand reindeer experience you can either book our Ráidu-tour or visit Márkanbáiki in the village.

Reindeer Lodge is the perfect spot for travellers by car who look for an accommodation off-the-beaten track, yet still easily accessible. Reindeer Lodge is situated only 15 km from Kiruna Airport and 3 km outside Jukkasjärvi village.
