

## Reindeer Lodge

**Stay amidst nature and with a Sámi touch outside Jukkasjärvi village. Choose between a cosy forest cabin (stohpu) and a comfortable Sámi tent (goahti), or why not one night in each? Nestled in the woods and on the banks of river Torne, this small-scale and snug accommodation facility with plenty of space offers an ideal base for your Swedish Lapland getaway.**

**During the period from late April to late autumn, we have no reindeer grazing at the lodge, but instead a free ticket to the Márkanbáiki Museum is included, where you can meet and feed some reindeer during summer and autumn.**

### Stohpu – Forest cabin (5)

Make a cosy cabin a resting place during your holidays. Our five wooden cabins in Sámi design are inspired by the reindeer herder cabins that used within reindeer husbandry. Each cabin is like a large room of 20 m<sup>2</sup> which is equipped with a double bed (1.60 x 2.00 m), wood-burning stove, electrical heaters, refrigerator, chairs and a table. Four out of five cabins are also furnished with a sofa bed (1.60 x 1.80 m) that can accommodate another adult and a child, alt two children. The cabin is decorated with elements and designs from nature and the Sámi culture and is a great accommodation in the woods. Breakfast is served in the morning for a good start to the day.

### Goahti – Modern Sámi tent (2)

Move into a comfortable Sámi tent for a couple of days with an adventurous touch to get a sense of reindeer herding lifestyle, albeit in a slightly arranged and pleasant way. Here we combine the best of glamping and the nomadic Sámi lifestyle in our two brand-new goahti tents. Each goahti is a conical tent room of 20 m<sup>2</sup> with one-meter-high insulated outer walls which are topped with long wooden poles that form the roof's framework. A high-quality tent canvas that withstands wind, rain and snow encases the roof's framework and thus creates a real close-to-nature experience.

The goahti tent is raised a bit above the ground and has insulated wooden floor. It is furnished with a double bed (1.40 m x 2.00 m), wood-burning stove, modern oil stove, chairs and table, as well as a sofa bed (1.20 m x 1.80 m) that can accommodate up to two children. A small sanitary room with combustion toilet and wash hand basin is built into the goahti for comfort reasons. There is access to separate refrigerator. The interior features Sámi design and natural materials. Candle lights enhance the lovely cosiness in this special type of lodging even more. Breakfast is served in the morning for a good start to the day.

### Facilities

WC, shower/sauna and guest kitchen/service hut are in separate common facilities located a few meters from the accommodations. Breakfast is served in the guest kitchen/service hut. A fully equipped guest kitchen and a griddle pan as well as a barbecue area are available for those who want to cook their own food. The sanitary spaces include bathrooms with WC, single-sex shower and changing rooms and a wood-fired, mixed sauna.

### See & do

Make the most out of your stay by exploring the surroundings during a forest walk, by swimming in the nearby creek or berry picking. Join our guided hiking and fishing tour, read more about them on our website. Enjoy the silence and take a relaxing sauna bath. Gather around the common barbecue site to eat your own cooked meal and to engage in conversations with other guests in an unbent atmosphere. In the summer it is bright day and night and in autumn when the nights get darker there is a chance to see the northern lights.
