

Package tour: Ruovttus – Homestay with Simon Issát – 3 days

Simon Issát Marainen invites you home for a unique opportunity to get close to the Sámi lifestyle, simply by living it! Get to experience life as a reindeer herder while you live in a cottage on Simon Issát's yard, help him with the reindeer and listen to his stories. The days are filled with both reindeer herder chores and free time to explore the local area yourself. So come and visit the Marainen family in Nedre Soppero where you can enjoy the barren winter landscape and the warm hospitality in an unforgettable, personal experience.

Being a reindeer herder is more than a job, it's a lifestyle. Everything is affected by the reindeer and no two days are the same, therefore this trip is more than just a holiday. The Marainen family invites you home to the small village of Nedre Soppero, with about 30 residents and next to river Lainio, to give you a unique insight into their everyday lives. On the yard, three generations live together, and you get to stay in a cosy cottage right next door. During your stay you will meet Simon Issát's children, partner, parents and of course the most important helpers within reindeer husbandry: the herding dogs. The everyday language is North Sámi and it is spoken consistently, so when you go home again you will hopefully have learned a few words!

While you live in Nedre Soppero, a small village with appr 30 permanent residents in the northeastern part of Kiruna municipality at the river Lanio, you are included in all everyday chores, from cooking to work with the reindeer. You can follow Simon Issát out to the forest where the reindeer graze surrounded by frost-covered spruces and piles of snow. There you can try hand-feeding the reindeer calves, go old-fashioned skiing and make coffee over an open fire. In addition to the arranged activities, there is plenty of time for your company to socialise and have valuable time together.

The whole family are creative souls, and this is to be seen everywhere. Simon Issát's parents are craftsmen and in their workshop you can see everything from world-class silversmithing to unique antler handicraft. Simon Issát is also a reputable artist and one of Sápmi's big names when it comes to both traditional and innovative joik. As the icing on the cake on this unforgettable trip, he promises you an intimate concert one of the evenings.

Thanks to the small group, a maximum of 3 adults or 2 adults and 2 children, the trip is private. The days are affected by season, weather and wind so nobody one knows exactly how the stay will be shaped.

Sámi eco adventures
