

Day trip: Vuoján – Reindeer sled excursion

Handle and drive your own reindeer with a sled along an approximately 10 km long trail through the vast and gorgeous winter landscape of Sápmi. This is an amazing hands-on eco adventure for outdoor enthusiasts that look for a truly traditional Sámi activity.

The reindeer sledding guide takes you via a short minibus transfer the Sautosjohka reindeer enclosures where you will meet today's travel company, the reindeer. Your guide will offer detailed instruction on handling and driving the sleds before you are ready to embark on a trip of your lifetime.

It is a pacy tour, with you being in full control of your own reindeer, but also relaxing so you can enjoy animals and nature along the way. After some time of active reindeer sled driving, we arrive to a nice spot where the guide prepares a classical and tasty reindeer herder lunch: suovas, smoked reindeer meat fried over open flames, and served on gáhkku-bread with a dash of lingonberry jam. We also sip a cup of freshly boiled coffee around the crackling outdoor fire.

The mesmerising atmosphere opens up for personal conversations about Sámi culture, traditions and lifestyle – with the reindeer as one of the Sámi community's most important upholder of Sámi culture and resource. After the break, the journey with reindeer and sleds continues and steers due Sautosjohka reindeer enclosures again. Here, everyone helps to unharness the draft reindeer before releasing them back to their enclosures.

You bid farewell to your new travel companions, and we return to the starting point in Jukkasjärvi village.
